INDEX TO VOLUME XLVII

Acetone bodies in normal pregnancy and in the toxemias of pregnancy..... 382
Allergy, Observations on the relation of, to immunity..... 189
Amyotonia congenita (Oppenheim's Disease) in identical twins..... 309
Arteries, superficial cerebral, On the origin of miliary aneurysms of the..... 239

Bacillus fusiformis, Cervical adenitis due to..... 378
Baker, B. M., Jr., and Donald McEachern, The effect of the ingestion of potassium iodide on the electrocardiogram of normal individuals..... 304
Blood guanidine base concentration in normal individuals and in patients with liver injury, Response of, to the ingestion of methyl guanidine sulphate..... 106
Book Reviews and Books Received..... 231
Bordley, James, III, Disappearance of diabetes mellitus during the development of cirrhosis of the liver..... 113

Cadden, J. F., and H. J. Stander, Acetone bodies in normal pregnancy and in the toxemias of pregnancy..... 382
Circulation, hepatic and portal, On the manner of anastomosis of the..... 176
Deliveries, forceps, Practical conclusions drawn from one thousand..... 382
Diabetes mellitus, Disappearance of, during the development of cirrhosis of the liver.. 113

Eagle, Harry, An explanation of the mechanism of the Wassermann and precipitation tests for syphilis..... 292
Eastman, Nicholson J., Foetal blood studies. I. The oxygen relationships of umbilical cord blood at birth..... 221
Ellsworth, Read McLane, Response of blood guanidine base concentration in normal individuals and in patients with liver injury to the ingestion of methyl guanidine sulphate..... 106
Encephalitis, epidemic, The prognosis for, in children..... 123

Firor, W. M., Cervical adenitis due to bacillus fusiformis..... 378
Foetal blood studies. I. The oxygen relationships of umbilical cord blood at birth.... 221
Forbus, Wiley D., On the origin of miliary aneurysms of the superficial cerebral arteries..... 239
Forbus, Wiley D., and Fred S. Wolf, Amyotonia congenita (Oppenheim's Disease) in identical twins..... 309
Frobisher, Martin Jr., and Isabelle Gilbert, The hydrolysis of sodium hippurate by various bacteria..... 55

Gilbert, Isabelle, and Martin Frobisher, Jr., The hydrolysis of sodium hippurate by various bacteria..... 55
Glomeruli, The number and size of the, in the kidney of several mammals..... 285
Guttmacher, Manfred S., The views of Adam Smith on medical education..... 164

Hamilton, Bengt, Laslo Kajdi and Dorothy Meeker, The relation between phosphorus, chloride and bicarbonate in the serum of rachitic and normal rabbits..... 215
Heliotherapy, Experiences with artificial..... 186
Howe, H. A., The prognosis for epidemic encephalitis in children..... 123

Jaundice, The pathogenesis of the forms of..... 338

Kajdi, Laslo, Rustin McIntosh and Dorothy Meeker, The response of plasma water and electrolytes to elevation of body temperature..... 61
Kajdi, Laslo, Bengt Hamilton and Dorothy Meeker, The relation between phosphorus, chloride and bicarbonate in the serum of rachitic and normal rabbits..... 215
King, John T., Jr., and Walter K. Myers, Observations on the menopause. III. Sensitiveness of women at the menopause to epinephrine..... 22
Kunkel, P. A., Jr., The number and size of the glomeruli in the kidney of several mammals..... 285

Langworthy, Orthello R., Histological changes in nerve cells following injury..... 11

McEachern, Donald, The effect of potassium iodide on the pulse rates of normal individuals..... 299
McEachern, Donald, and B. M. Baker, Jr., The effect of the ingestion of potassium iodide on the electrocardiogram of normal individuals..... 304
McIntosh, Rustin, Laslo Kajdi and Dorothy Meeker, The response of plasma water and electrolytes to elevation of body temperature..... 61
Meeker, Dorothy, Rustin McIntosh and Laslo Kajdi, The response of plasma water and electrolytes to elevation of body temperature..... 61
Meeker, Dorothy, Bengt Hamilton and Laslo Kajdi, The relation between phosphorus, chloride and bicarbonate in the serum of rachitic and normal rabbits..... 215
Menopause, Observations on the, III. Sensitiveness of women at the menopause to epinephrine..... 22
Myers, Walter K., and John T. King, Jr., Observations on the menopause, III. Sensitiveness of women at the menopause to epinephrine..... 22

Nerve Cells, Histological changes in, following injury..... 11

Olds, John McKee, and Edward Stephens Stafford, On the manner of anastomosis of the hepatic and portal circulations..... 176

Phosphorus, chloride and bicarbonate, The relation between, in the serum of rachitic and normal rabbits..... 215
Placenta, Observations on the, from a case of malaria..... 157
Plasma Water and electrolytes, The response of, to elevation of body temperature.. 61
Potassium iodide, The effect of, on the pulse rates of normal individuals..... 299
Potassium iodide, The effect of the ingestion of, on the electrocardiogram of normal individuals..... 304

Rich, Arnold Rice, Observations on the relation of allergy to immunity..... 189
Rich, Arnold Rice, The pathogenesis of the forms of jaundice..... 338

Smith, Adam, The views of, on medical education 164
Sodium hippurate, The hydrolysis of, by various bacteria 55
Stafford, Edward Stephens, and John McKee Olds, On the manner of anastomosis of the hepatic and portal circulations 176
Stander, H. J., Practical conclusions drawn from one thousand forceps deliveries ... 382
Stander, H. J., and J. F. Cadden, Acetone bodies in normal pregnancy and in the toxemias of pregnancy 382
Syphilis, Tests for, An explanation of the mechanism of the Wassermann and precipitation reactions 292

Thomas, Henry M., Jr., Thyroid heart, a transitory condition 1
Thyroid Heart, a transitory condition 1

Willis, Henry Stuart, Experiences with artificial heliotherapy 186
Wilmer Institute, Dedication of 44
Wislocki, George B., Observations on the placenta from a case of malaria 157
Wolf, Fred S., and Wiley D. Forbus, Amyotonia congenita (Oppenheim's Disease) in identical twins 309
